NAVIGATION ON THE GO

Let's see how it works...

Citymapper

FINDING NEW PLACES

Reviews and Ratings, TripAdvisor

More reviews tend to be more reliable

Explore your surroundings

Search a keyword like 'restaurants' or 'libraries'

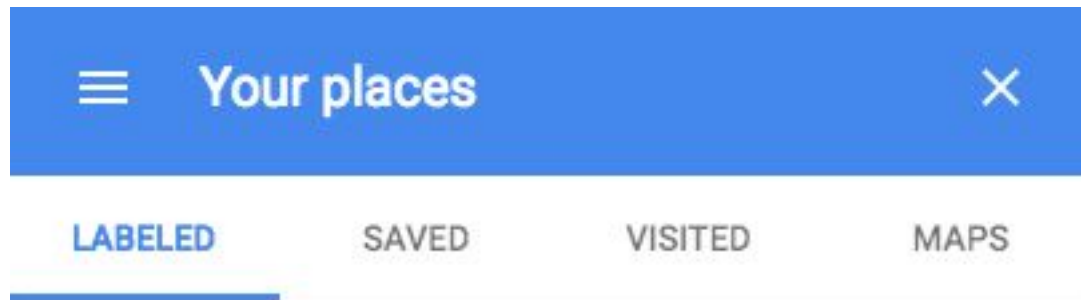

SAVING OLD PLACES

Save in your lists

-  Favorites
-  Want to go
-  Starred places
-  New list

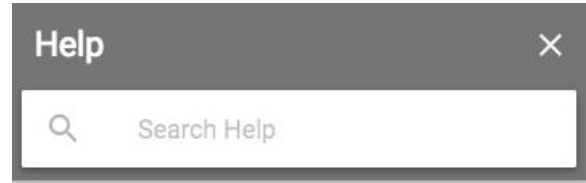

Saving on your Google account

Save time when making regular journeys

TIPS AND TRICKS

Google Tips & Tricks

Tips and tricks for Google Maps on your computer

Sign into Google Maps

Save your favorite places to search or get directions easily by signing in. Your places and recent searches will follow you across devices.

[Learn more](#)

Print the map or directions

Print a map of an area, a place, directions, or imagery.

[Learn more](#)

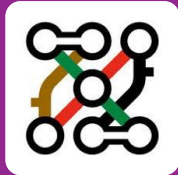

Measure distances

Measure the distance between two or more points on the map.

Top Tips:

- Check for travel disruptions in advance
- Read reviews
- Always check you've entered the correct destination
- Charge your phone beforehand – satnav can be draining on your battery
